LIVE WELL SAN DIEGO

Our Commitment to Honor and Respect the Rich Inspiration and History of this Community

In 2026, new and significant concerns about one of the Community Center namesakes came to light. While Chavez has long been recognized for his contributions to civil rights and farm worker advocacy, these developments prompted a reevaluation of how he is represented. For that reason, the history display has been updated to place less emphasis on his name while continuing to highlight the impact of the community center. Original artwork in the main corridor (represented on page 19) and original photographs remain unchanged.

The County of San Diego Southeastern *Live Well* Center

The County of San Diego Board of Supervisors supports a region that is building better health, living safely and thriving. Established in 2010, *Live Well San Diego* is the vision that aligns the efforts of over 550 partners, including individuals, organizations, and governments such as the County of San Diego, to help all 3.3 million San Diego County residents live well.

The Southeastern *Live Well* Center (SELWC) provides health and social services for people living in the community, all in one central location. Its mission is to create the opportunity for residents of all ages, gender identities, races/ethnicities, and socio-economic levels, to achieve the *Live Well San Diego* vision.

The SELWC at the southeastern corner of Market Street and Euclid Avenue provides a single stop for residents to receive a variety of services in a convenient and modern location. It serves as a hub for community meetings, educational opportunities, workspace, and workforce training.

The Southeastern *Live Well* Center Public Art Program

Art Statement: *Art at the Southeastern* Live Well *Center (SELWC) represents and celebrates the history, diversity and cross-cultural experiences of the community while educating, creating beauty, inspiration, and healing.*

A group of local community members, the SELWC Public Art Advisory Committee, convened to facilitate the project, create the art statement, and then review, score, and vote on the artwork. The Art Consultant released a Call for Art request to the local arts community asking artists to submit proposals for artwork in a wide variety of media including sculpture, two-dimensional and three-dimensional artwork, original art, oil, watercolor and acrylic paintings, limited edition prints, giclee prints, mixed media art, glass, mosaics, wall sculpture, fabric art, collages, and photography.

Artist selection criteria included:

Quality and Creativity. Does the artist show proof of creating unique and inspiring work? Does the work tell a story or provide inspiration and beauty? Will the artist's style and media work well within the building spaces?

Celebrates History, Diversity and Has Roots in the Community. Does the artist come from a cultural background that is represented in the community? Has the artist worked in or lived in or near the community? Does the artist show a cultural sensitivity in the artwork?

The result is the first Public Art Collection in the County of San Diego comprised of predominately artists of color. Over 100 artists submitted concepts for consideration. Of those, 33 artists have work represented at SELWC, 14 of which are original, commissioned, custom works, while 20 additional artists provided 36 pieces of art such as: original paintings, photography, mixed media, giclee prints, one quilt, and one basket. There are a total of 50 pieces of art onsite. One hundred percent of these artists fit the art criteria of having roots in the community.

STEPPING BEYOND

MANUELITA BROWN

www.tsahaistudio.com
Medallions by **Judy Salinsky**
Stainless steel by **Austin Casson**
Stepping Beyond, 2023
Bronze and steel sculpture
6'7"H x 3'W
(Main Entrance Plaza)

This sculpture signifies a human being pressing beyond current circumstances, leaving one space toward another while moving an obstacle out of the way. The journey requires struggle, internal and external, to go beyond the present for a better life and is a part of our shared and universal experience. The Southeastern community of San Diego is inhabited by individuals of many ancestral origins. Eight medallions representing the flora of cultural identities in the community adorn the banner to represent our diversity and commonality: American rose; Kumeyaay live oak tree and ewaa; Lao plumeria, Mexican dahlia, Philippine Sampaguita or jasmine sambac, Samoan ginger, Somalian protea and Vietnamese lotus.

Manuelita Brown creates artwork that has been described as authentic and personal. It also may incorporate subtle ideas in expressive, graceful, elegant forms. It is important to her that each sculpture elicits a connection with viewers at both emotional and cognitive levels. If the viewer remarks, "that's me—I feel just like that" or "I remember that—I've been there" or "I know him or her" then Brown has achieved a major goal. Through portrait sculptures, she hopes to represent the wonder, the promise, the mystery and majesty of creation that she sees in all.

SPIRIT OF THE COMMUNITY
featuring **BIRDSONG**

JEAN CORNWELL WHEAT

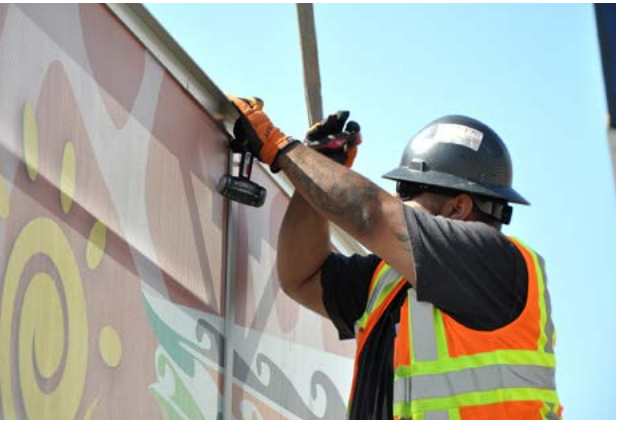
www.jeancornwellwheatart.com

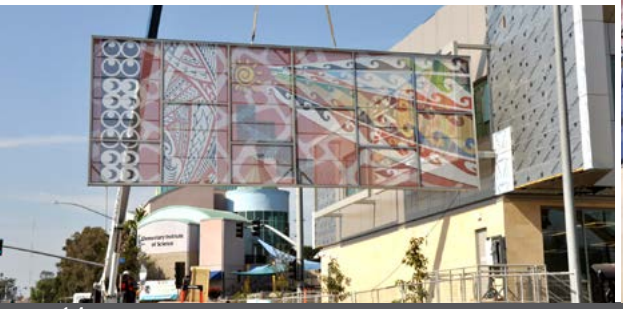
Spirit of the Community featuring **Bird Song**, 2023
Seven painted and mosaic embellished totems; concrete, poured resin, lime stones
(Meditation Garden)

These seven totems represent the community cultures of African American, Mexican/Chicano, Latin American, Filipino, Polynesian and Asian. The final meditation totem is the artist's personal statement of peace, love, and unity. The centerpiece, **Bird Song**, represents the Kumeyaay Nation's symbol of the oak tree. Images on the four sides symbolize earth, air, fire and water.

Jean Cornwell Wheat attended, and later had the privilege of becoming an instructor of African American art, at San Diego City College. She is one of the most important artists in our region, and her body of work and continued contributions are of vital significance to San Diego's arts and culture ecosystem as a whole.

SINGING PATTERNS





DORIS BITTAR

www.dorisbittar.com

Singing Patterns, 2023
Artwork design for two metal sunscreen panels
(Exterior Sunscreen facing Euclid Avenue)

This two-part mural honors the cultures of San Diego's dynamic and historic neighborhoods. Metaphorically bridging regions, history, and time, the artwork incorporates two large migratory patterns to unify the entirety of the space.

Doris Bittar is interested in developing creative solutions for every part of the space that needs it. In some areas she will pull in others so the best possible adaptation of concepts with materials are fabricated. Bittar works with the methods of layering patterns from various world and local cultures one over the others in a play of pattern, structure, and most recently, text.

WINGS OF WELLNESS

VICTOR OCHOA

www.instagram.com/muralsochoa

Wings of Wellness, 2023
Oil with pearlescent paint on canvas
6'H x 12'W
(Main Entrance)

With a goal of being a treasure in our community, this building brings in the light. The pearlescent colors accentuate the sky and the elements of healing and joy. The beautiful girl in flight with her father defies the negative stereotypes about the role of men in family dynamics, while the mother gives her child a back ride.

Victor Ochoa has worked with the community to advocate for cultural art, gathering spaces, archives, and museums in our communities. His long-term investment and engagement has been fruitful due to the trust woven into the work with the community and has allowed him to develop integral partnerships with artists and community members.

Christopher Lloyd Tucker is a San Diego-based multimedia artist, specializing in woodwork, metalwork, and digital art. He feels that if each community can dedicate themselves to enriching their communities through engaging with the arts, we will learn more about each other.

OUR LEGACY

JHELEN MARIE RUANTO RAMIREZ

Our Legacy, 2023
Original painting, acrylic on canvas
5'H x 6'W
(Main Lobby near Elevator)

Throughout history, people have struggled together to contest colonial fictions which seek to divide and pit us against one another. This piece reminds us there is strength in solidarity and highlights how these movements reflect diversity and interconnectedness of those seeking justice, liberation, recognition, or representation. Included are prominent civil rights era activists: bell hooks, Martin Luther King Jr., and Yuri Kochiyama; along with migrant workers' advocates: Cesar Chavez*, Dolores Huerta, and Larry Itliong. Even in highly charged moments an inherent optimism is shared by those who seek positive social change and believe in a brighter future worth working toward.

Jhelen Marie Ruanto Ramirez has been deeply inspired to create art that reflects who she is and who she thinks she is with hopes that others can connect with what she is trying to express. Rather than just focusing on the finished product, Ramirez wants her pieces to be a body of work that moves and tells a story. This led her to pursue art on a scale that she could never imagine – creating murals that demonstrate a personal story deeply entwined with a forgotten history.

BENIN

NATASHA

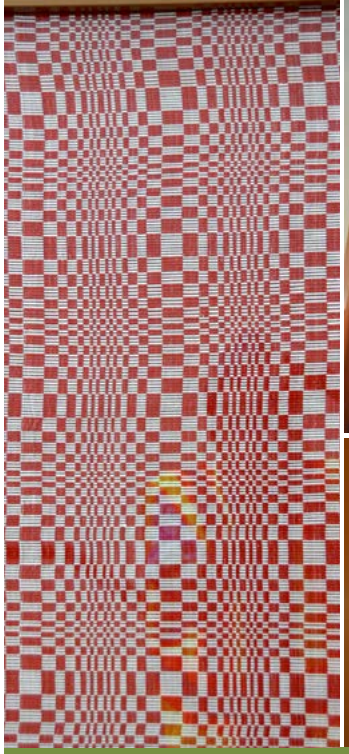
DANIEL (MAXX MOSES) HOPKINS

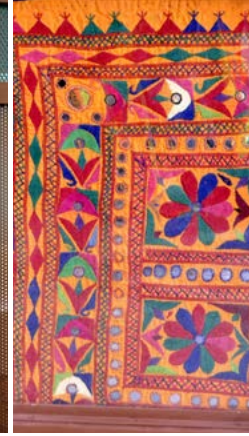
www.maxxmoses.com

Benin, 2023
Natasha, 2023
Acrylic and spray paint on canvas
6'H x 4'W (each)
(Conference Center)

Benin represents the masculine spiritual energy of Africa. He is a warrior, a priest, an elder and keeper of wisdom through the ages. Benin has the ability to see way into the future and guide the community with insights on how to prepare and adapt for what's coming. **Natasha** is the keeper of love. Her eye is fixated upon the divine and a peacock is perched on her brow. The painting is symbolic of relationship and adoration for the security, protection, beauty, and strength of the masculine.

Maxx Moses feels that the energy and language of art conveys messages and codes that transmit and transform the way we think, feel, and interact with the world. His vision is to design works of art that incite a visual, harmonic resonance upon the observer. His goal is to create works of art that reflect the highest ideals of self- love and well-being, through the skillful usage of color, shape, and form.





CRISOL

FRANCISCO EME

Ceramics by **Evan Lopez**

Crisol (melting pot, collage, mix), 2023

Embedded textiles collected from different cultures; embedded ceramics utilize raw earth materials such as wild clay, stones, and sediment sourced from various parts of San Diego County

(Main Lobby Stairwell)

The installation aims to honor the cosmogony of diverse cultures of the world, represented in their textiles. It also brings attention to the beauty and importance of local minerals, fauna, and flora. These juxtapositions propose a balance between people and ecosystems, traditional knowledge, and modernity.

Francisco Eme is a resident of Paradise Hills, San Diego (just a few minutes from the Southeastern *Live Well* Center). Eme has been very interested in working with the community to bring awareness about the native wildlife that still live in the neighborhood. He wants to protect and support the environment that is their home, which in return will provide balance to our ecosystems, leading to a better climate, water, and ecology. As an artist, he strives to use his art to bring awareness, hope, and love.

KUMEYAAY BASKET

AURELIA OJEDA MELENDREZ

Kumeyaay Basket
Original handwoven basket
28" Oblong
(Main Corridor)

Aurelia Ojeda Melendrez is a famous basket weaver from San Jose De La Zorra, Baja California Mexico. She weaves coiled juncus baskets and willow acorn storage baskets. Melendrez is famous for her stunning coiled rattlesnake basket patterns and Kumeyaay basket hats. She is the daughter of the basketmaker, Virginia Melendrez and she learned to weave Indian baskets at a young age with her grandmother, Celia Silva.

The baskets were graciously gifted by the Manzanita Band of the Kumeyaay Nation for use in this public art program.

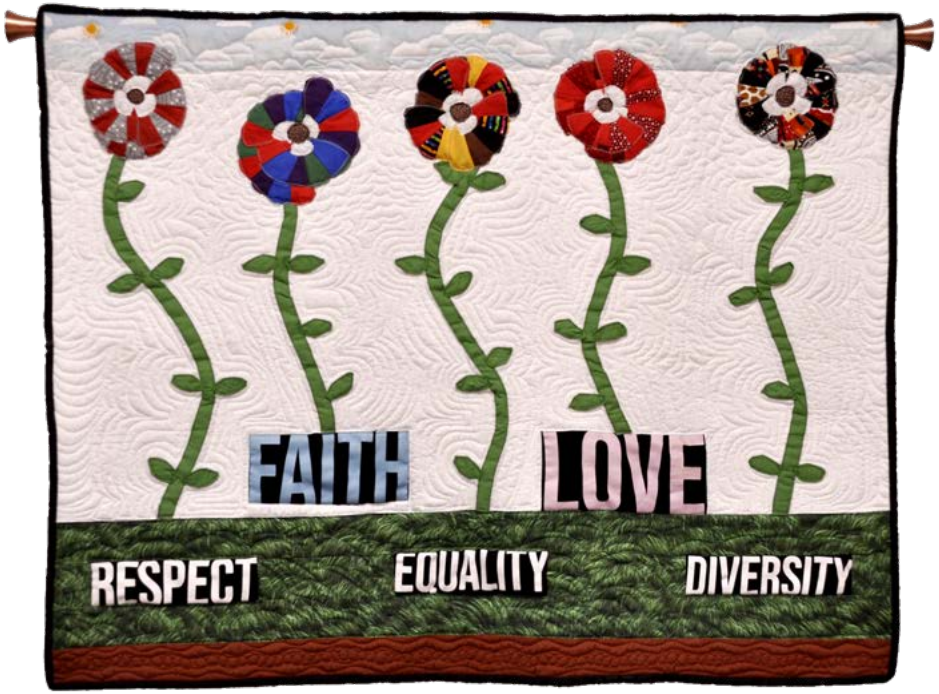
REFLECTIONS & CONNECTIONS

JOSE "BEAN" VENEGAS

Reflections & Connections, 2023
5'H x 6'W
Mixed media on mirror, spray paint, paint markers, and permanent markers
(Main Corridor)

Using many different languages and symbols to reflect an act of kindness or human affection, this art piece is created on a mirrored surface. People can enjoy and connect while they become part of the art as they see themselves in the reflection. With different people reflected and connected the art piece is never the same and always changing.

Jose "Bean" Venegas says that living in Southeast San Diego in the 90s wasn't always a walk in the park. Surrounded by gangs, drugs, and violence, he chose to pick up a spray can instead of a gun. He was fascinated by the vandalism aspect of graffiti art. While riding the trolley to work one day, Venegas noticed a group of youth spray-painting large wooden walls with graffiti art. He witnessed more people attending the next day. Curious to learn more he skipped work one day, and never went back. Venegas was once part of the problem; now he is part of the solution.



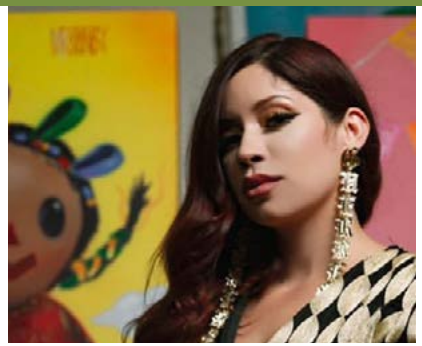
A PERFECT WORLD IN FULL BLOOM

PATRICIA KELLY

A Perfect World in Full Bloom, 2023
Original quilt
32"H x 40"W
(Family Room)

Patricia Kelly has been a member of the San Diego People of Color Quilt Guild which meets at the Malcolm X Library since 2014. For over twenty years she was employed by San Diego County Child Welfare Services and worked in various programs, first as a Protective Services Worker and finally as a Protective Services Worker Supervisor. Providing this quilt allows her to combine her love for this community with her love of sharing this medium with the community!

BLOSSOM



"MR. B BABY" MICHELLE GUERRERO

www.mrbbabyart.com
Blossom, 2023
Acrylic, paint on a wooden panel
6'H x 8'W
(Family Room)

Mr. B Baby's colorful character, Chucho, is a piñata who tells a story about resilience. Piñatas were originally filled with seeds and broken over the garden to disperse the seeds. Out of this brokenness comes growth to bloom and blossom. This art piece represents our continuous growth and resilience in life.

"Mr. B Baby" Michelle Guerrero explores the relationship between Mexican folk art and children's books. Growing up, she was inspired and fascinated by the wood workers and craftsmen vending their art on the Tijuana street corners. Her artwork has a whimsical twist, combining the cultural world with a playful, colorful touch. Her Mexican and Puerto Rican heritage has inspired much of the work she creates today.

The stories we tell ourselves and the stories that are told to us, about us, our families, our parents, and our communities stay with us. We invite viewers to see that they have the power to change their story and to thrive within the counter story. This enables many choices: to turn the page and offer new hope or a different perspective; to close the book and have a fresh start; to look within and challenge what is believed about the original story; and even to jump right off the page and write one of your own.

CHOOSE YOUR OWN ADVENTURE!

XoQUE Art in Motion, founded in 2021, is a border art collective of diverse identities that revolve around women who are Chicana/x, Mejicanas and Native who are committed to social and racial justice. The word XoQUE can be translated in Spanish to mean "crash" or "collision." The "X"is Nahuatl or Indigenous for the "Ch" in Chicana/x and "X" marks the spot in colliding with the status quo and in providing a visual counter narrative. XoQUE's purpose is to magnify border, social justice, and community issues in innovative ways by implementing site specific art that reclaims the community's wisdom and knowledge.

COMMEMORATIVE POEM

The Heart of the Community

by Leah Goodwin

The Southeastern *Live Well* Center
Is a symbol of hope for all to see
Right in the heart of the community,
Rooted in diversity, equity, and unity.

Where the Community Center once stood,
A beloved place in the neighborhood.
This building is on sacred land,
The home of the Kumeyaay is where we stand.

Moving with the spirit of community in our hearts,
Providing spaces for gathering, and eating, and art,
This place is for healing, a place to connect,
To remember our leaders with deep care and respect.

Are you here for work, for help, or a meeting?
You will be welcomed with a smile and a greeting.
Take a look and you'll find, the message is clear,
The heart of the district is alive, well, and beating!

(Skylight over Stairwell)

The nearby waterway, Chollas Creek, once played an important role in the region by providing habitat and sustenance for native people and wildlife. Urbanization resulted in a neglected system, and current efforts to rehabilitate and restore its vitality are ongoing. This installation is inspired by the idea of a fully restored Chollas Creek, shimmering under the bright sunlight filtering in from above. Full of color and light, it symbolizes a new beginning and a celebration of individuality, cultural diversity, biodiversity, and community wellness.

Kaori Fukuyama is fascinated by how light affects the way we see, feel, and perceive our surroundings. The complex relationship among color, light, and shadow is the focus of her artwork, which combines sensibility to natural light, clean aesthetics, attention to craftsmanship, and evokes memories or experiences that remind the viewers of the beauty and magic of the light we encounter in our everyday life.

"If you embrace the thought that the things you can do are limitless, then you can put a ding in the universe and you can change the world." – Tim Cook, CEO of Apple

This diverse grouping of individuals portray the idea that each person has a story of their life which takes place in their own unique universe. This is represented by the bubble each holds near. Simultaneously, they coexist on our planet together and are connected to one another in many different ways.

Andrea Rushing loves all of mankind, and he feels we are all made better when we are all made better. He has also been invested in the human condition, attempting to hold up a mirror to show the sound and fury and glory that is life.

This piece honors the people and cultures in our communities who lay the foundations for others to build upon, nurture and grow. Our communities are much like ecosystems where we must work together and support one another to flourish.

Chloe Becky believes art has a mystifying power to heal, inspire, and move people. In every part of town where she has worked, she connects with the neighbors and explores the history and stories of each unique and beautiful borough. Her work most often incites deep feelings and meaning surrounding the profound experience of human existence. It is always thoughtful and intentionally incorporates aspects of the culture meant to directly connect and appeal to the viewer.

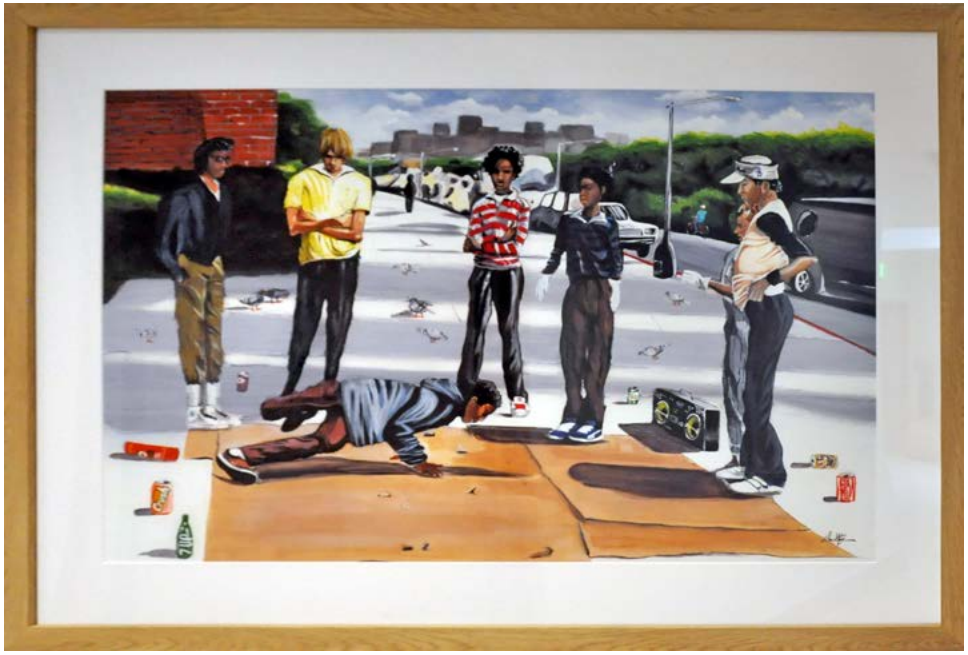
This piece provides a visual and personal space for contemplation and wellness from within and for everyone. The branches and coloration represent a natural environment, with hints of the sky and sea.

Wendy L. Maruyama retired from teaching in the woodworking and furniture design program at San Diego State University. Since then, she has embarked on several works of social advocacy. One such work was highlighting the plight of the Japanese American incarceration camps during WWII. In recent years, the work has come closer to home: she has been confronted by the realities of aging and loss through her family members. Her recent works have been centered around the importance of healing and solace, memory, or the loss of.



KIDS ON THE CORNER

DAMIEN BROWN

Kids on the Corner
Giclee print
30”H x 40”W
(Main Corridor)

Damien Brown is a self-taught artist who is convinced that representation is critical. The pieces he creates are diverse so that various groups and segments can see themselves through his art. Whether it is history, current time frame, or the likely future, a variety of individuals can connect with these images.

KUMEYAAY KITCHEN

TOM WARD

Kumeyaay Kitchen
Giclee print
20”H x 27”W
(Main Corridor)

Tom Ward expresses his artistry using paint, sculpture, pottery, and gourd art. His art reflects his background with Wyoming landscapes, paintings of his travels, California landscapes and Native American subjects. Ward enjoys painting pictures of the Kumeyaay people because it is a subject not explored by many artists.

Brian McClean is a minority artist who dealt with inadequate housing, facilities, and mental health services during his upbringing. He did not know about mental health or healing from trauma as he was growing up, which led him to cope with these challenges in an unhealthy way. He has a passion to help change those negative societal conditions. McClean wants his art to help the well-being and emotional health of others.
